This is in response to the Amendment dated August 4, 2003. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Response to Arguments

Drawings

The drawings have been objected to under 37 CFR 1.83(a).

The objection of the drawings has been withdrawn in view of the Replacement Sheets of drawings received on August 4, 2003. These drawings are approved by the Examiner.

Specification

The disclosure has been objected to because of minor informalities.

The objection of the disclosure has been withdrawn in view of Applicant's amendment.

Claim Objections

Claims 1, 8, 20, 24 and 26 have been objected to because of minor informalities.

The objection of claims 1, 8, 20, 24 and 26 has been withdrawn in view of Applicant's amendment.

Art Unit: 1753

Claim Rejections - 35 USC § 112

Claims **1-33** have been rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The rejection of claims 1-33 under 35 U.S.C. 112, second paragraph, has been withdrawn in view of Applicant's amendment.

Double Patenting

Claims **1-33** have been rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims **1-30** of U.S. Patent No. 6,534,116 B2 (Basol).

The rejection of claims 1-33 under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1-30 of U.S. Patent No. 6,534,116 B2 (Basol) is as applied in the Office Action dated May 12, 2003 and incorporated herein. The rejection has been maintained for the following reasons:

Applicant states that the present application will gain benefit of the priority of the US 6,534,116 patent. Therefore, Applicant requests reconsideration and withdrawal of the double-patenting rejection.

In response, it is deemed that a timely filed terminal disclaimer is needed to overcome the double-patenting rejection because without one, the US 6,534,116 patent would have an unjustified or improper timewise extension of the "right to exclude"

Art Unit: 1753

granted by the patent. See MPEP 804.02.

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Response to Amendment

Claim Objections

Claims 1 and 32 are objected to because of the following informalities:

Claim 1

line 5, the word "portionof" should be amended to the words -- portion of --.

line 6, the word "portionof" should be amended to the words -- portion of --.

line 10, the word "portionof" should be amended to the words -- portion of --.

Claim 32

line 3, the second "." (period) should be deleted.

Appropriate correction is required.

Art Unit: 1753

Claim Rejections - 35 USC § 112

Claims **3 and 4** are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 3

line 1, "the step of applying the workpiece-surface-influencing device" lacks antecedent basis. Is this the same as the step of using a workpiece-surface-influencing device (from claim 1, lines 8-10)?

Applicant's cooperation is requested in correcting any errors of which applicant may become aware of in the claims.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any

Art Unit: 1753

extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
